To whom it may concern

I am the pediatrician who has been seeing
M.H. and S.H. ~~Heaven~~ Their mom
has finally regained custody of her 2 daughters
but has heard of an effort to reunify her daughter
with the paternal grandmother who allows the biological
father access to the girl. Since there is evidence
he has sexually abused some of the daughters, it
does not sound wise to permit him or the paternal
grandmother access to his daughters at least until
the outcome of his trial regarding the sexual
abuse charges is completed.

Thank you for your help

Yours Truly
Roger Bost MD
